REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The specific limitations of "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated" in the combination as claimed in claim 1; "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated" in the combination as claimed in claim 2; and "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated" in the combination as claimed in claim 3 are not anticipated or made obvious by the prior art of record in the examiner's opinion. For example, U.S. Patent 3,695,256 teaches a main support member (19) in conjunction with a weight attached to a traction cord. Pair of pulley assemblies are mounted to the support member to threadedly receive the traction cord and raise the neck support (130). U.S. Patent 4,825, 578 teaches a camouflage blind apparatus (10) which is to be suspended from a limb, where the apparatus includes a lanyard member (28), a weight (29), camouflage material (18) and stiffening circular members (24). U.S. Patent 6,769,442 B2 teaches a camouflage hood frame blind (10) where the hunter's weight holds the hood down and standing up causes the hood (15) to flip-up. U.S. Patent 4,458,707 teaches a camouflage cover (26) mounted to a tree (10) or vertical support through the use of ties (14). U.S. Patent 5,630,439 teaches a portable hut (1) that is comprised of a fabric cover (5) and vertical frame sections (33 and 34), which is mounted to a tree (3). U.S Patent 5,528,849 teaches a camouflage tube (10) that uses a plurality of hoops (20 and 22) to form an upstanding open-ended tube (10) that is suspended from a tree limb through the use of straps (28).

However the prior art of record fails to teach or suggest the specific limitations of "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated " in the combination as claimed in claim 1; "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated" in the combination as claimed in claim 2; and "said weight being heavier than said hood whereby releasing said weight causes said hood to be elevated" in the combination as claimed in claim 3 .

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

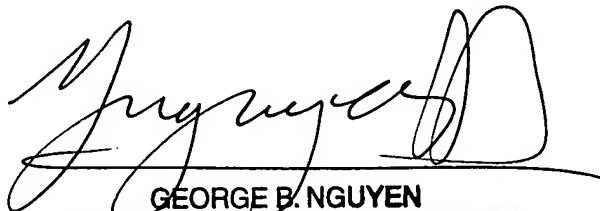

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaitlin A. Wilson whose telephone number is (571)-270-3206. The examiner can normally be reached on Monday- Friday (7:00am-5pm).
